

Internship (M)

2 units (selection)

Target › This program is provided to increase knowledge and experience in the actual industrial technology in various fields. Through the practical experience, the program will allow students to become discerning and well-balanced researchers or engineers with deeper understanding of technological societies.

Outline › Credits are acknowledged to students who experienced the internship in companies and/or government offices. Their fulfilment is evaluated by activity reports during internship.

Goal ›

1. Grasping internal systems of a company, management, action and strategy to achieve the company's goal. (2)
2. Understanding human relationship and communicative manner in a working society and a company.

Evaluation Criteria › Achievement is evaluated by how you tackled, activity reports, and an evaluation record submitted by supervisors in company and/or government.

Contents › <http://cms.db.tokushima-u.ac.jp/cgi-bin/toURL?EID=216612>

Student › Able to be taken by only specified class(es)

Note › A possible student should submit portfolios which are evidenced for his/her 90 hours' extensive work. Students are advised to ask details about this lecture to their supervisors.
